PROFESSIONAL SUMMARY

Associate Software Engineer at Canada Life with expertise in enterprise backend development, Spring Boot, full-stack product architectures, and AI semantic retrieval workflows. Computer Science graduate from Siddaganga Institute of Technology with proven track record in building multi-role healthcare platforms, knowledge engines, and guarded AI search agents.

EXPERIENCE

Canada Life

Bangalore, Karnataka (Hybrid)

Associate Software Engineer

Jul 2026 – Present

- Building production software as a full-time Associate Software Engineer in a hybrid engineering team.
- Engineered maintainable backend services, RESTful APIs, and reliable software architectures prioritizing security and performance.

Chiac ASI

Sheffield, UK (Remote)

Superintelligent Evangelist / AI Developer

Feb 2026 – May 2026

- Developed AI-driven query processing systems and context-aware article retrieval agents to optimize search relevance.
- Coordinated engineering workflows, optimized backend API integrations, and implemented prompt-safety guardrails.

Japan Grab Technologies

Bangalore, Karnataka (Hybrid)

Student Intern

Oct 2023 – Nov 2023

- Practiced collaborative software development workflows in an Agile setup with daily standups and code reviews.
- Gained early software industry experience with continuous integration and containerized deployment workflows.

EDUCATION

Siddaganga Institute of Technology

Tumkur, Karnataka

Bachelor of Engineering in Computer Science and Engineering

Nov 2022 – May 2026

- Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Management Systems, Computer Networks, System Design.

TECHNICAL SKILLS

Languages: Java, TypeScript, JavaScript, Python, SQL

Backend Engineering: Spring Boot, Spring Security, Node.js, Express, FastAPI, REST APIs, JWT, RBAC

Frontend & UI: React.js, Next.js, Redux Toolkit, Tailwind CSS, Vite, HTML5, CSS3

Databases & Storage: MongoDB, PostgreSQL, MySQL, Mongoose, Firebase

Tools & Cloud: Git/GitHub, Docker, Postman, Vercel, Render, pnpm Workspaces, VS Code

PROJECTS

PIMS (Patient Information Management System) | *React, Node.js, Express, MongoDB, JWT* |  Live |  CodeJan 2026

- Engineered a multi-role healthcare workflow platform managing prescriptions, patient records, inventory tracking, and notifications.
- Implemented stateless JWT authentication and strict RBAC across Doctors, Pharmacists, Admins, and Patients.
- Designed backend architecture featuring immutable stock audit trails to prevent out-of-stock prescription fulfillment.

Knowledge Vault | *React, TypeScript, Express, MongoDB, TanStack Query* |  Code

Feb 2026

- Architected a markdown wiki platform with internal wiki links, article version history, search, and favorites.
- Implemented session-based authentication, admin moderation controls, OTP password reset, and version restore flows.

NeuralQuery (AI Knowledge Base Agent) | *FastAPI, Python, React, TypeScript, Gemini* |  Code

Mar 2026

- Built a semantic search agent with FastAPI and Google Gemini that ranks and explains knowledge-base matches.
- Implemented prompt-injection defenses, input sanitization, public ID privacy mapping, and private audit logging.

New Vishal Tailors Digital Platform | *React, TypeScript, Express, pnpm Workspace* |  Live |  Code Apr 2026

- Architected a multilingual business application and digital storefront monorepo with dedicated web and API apps.
- Integrated QR code generation, interactive inquiry workflows, and localized translation keys.

CERTIFICATIONS & ACHIEVEMENTS

- SpringBoot for Beginners (Amigoscode)** – REST APIs, Dependency Injection, Spring Framework (Aug 2025)
- Learn Git by Doing (Udemy)** – Version Control, GitHub Copilot Workflow (Credential ID: UC-57d53899) (Nov 2025)
- Docker: A Project-Based Approach (Udemy)** – Containerization & DevOps Fundamentals (Credential ID: UC-2827526f) (Nov 2025)
- 8-Week Advanced DSA Program (GeeksforGeeks)** – Data Structures & Algorithms in Java (Nov 2024)
